Subject: RE: DessRoches FOIA submissions

I need the request that we addressed when we said that none of the documents we found were responsive.

Seeking all records that were found to be non-responsive to the following FOIA request: EPA-HQ-2016-002082. Those records include "all of the 949... collected that would otherwise be releasable" as per a September 5, 2019, email ("Email") from Paul Cestone (Cestone.Paul@epa.gov) to David DesRoches (davidoftherocks@gmail.com).

These are all communications that the Office of Chemical Safety and Pollution Prevention's (OCSPP), Office of Pollution Prevention and Toxic's (OPPT), National Program Chemical's Division gathered after conducting "an extensive search for communication between specific EPA management and individuals associated with the @monsanto.com. Email addresses were run through EPA's eDiscovery search tool which resulted in a compilation of 949 documents," the Email stated.

This is his original FOIA that was closed out.

I would like to receive copies of any and all email communications related to PCBs between and among appointed officials, employees or contractors (collectively, "Agents") of the Environmental Protection Agency ("EPA"); and employees, contractors or lobbyists of Solutia, Inc.; Pharmacia; and Monsanto ("Named Companies"). The response should include all email exchanges between Agents of the EPA and other EPA Agents, as well as exchanges between EPA Agents and the Named Companies, that include mention of any or all of the following terms or phrases: polychlorinated biphenyls, PCB, PCBs, Aroclor, Arocolor, Therminol, or any other synonym or trade name that refers to polychlorinated biphenyls. If EPA business was performed by Agents using personal email addresses and not official U.S. government email addresses, I ask that these emails also be included in the response. I ask that the information be delivered in electronic format, if possible, in a searchable file, delivered either electronically or through a digital storage device. Thank you for your time and attention to this matter. david desroches
